

C o n c e p t

The Haas Infinite line represents the cutting edge in pool design and manufacturing, combining the robustness of fiberglass with the elegance and durability of ceramic coating. Developed to provide an experience of luxury and sophistication, each pool in the Haas Infinite line is a work of art that transforms any space into a private oasis.

Resume

The Haas Infinite line is the ideal choice for those looking for not just a pool, but a true work of art. With a faster cleaner installation process, sophisticated output devices and a variety of stunning finishes, Haas Infinite pools stand out for their innovation, quality and elegance.

Advantages and Differentials

Assembly Time

Quick Installation: Haas Infinite pools can be installed in significantly less time compared to traditional masonry pools, due to the prefabrication of the fiberglass structure. **Clean Work:** Pool installation involves less movement of earth and debris, resulting in a cleaner process that is less disruptive to the surrounding environment.

Output devices with stainless steel finish

Haas Infinite output devices are designed to combine functionality and aesthetics. With a stainless steel finish, these devices are corrosion resistant and add a touch of sophistication to the pool design.

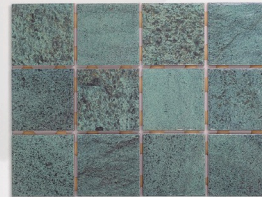

Manufacturing Process

1 - Fiberglass Structure: The base of the pool is made of fiberglass reinforced plastic (FRP), a material known for its resistance, durability and lightness.

2 - Ceramic Coating: The internal surface of the pool is coated with ceramic, providing an impeccable, durable and aesthetically superior finish. This coating is applied using advanced technology to ensure perfect adhesion and resistance to cracking and discoloration.

1. Palau Bright:

A coating with a deep green tone, inspired by the crystal clear waters of the island of Palau, providing a feeling of tranquility and freshness, with a natural finish.

2. Palau:

A lighter variation of the Palau, offering a celestial green tone that reflects sunlight brilliantly, creating a luminous and vibrant effect on the water.

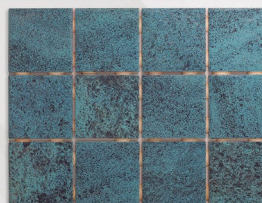

3. Samoa Bright:

Coating with a blue tone, evoking the tropical and lush landscapes of Samoa, ideal for those looking for a connection with nature, with a natural finish.

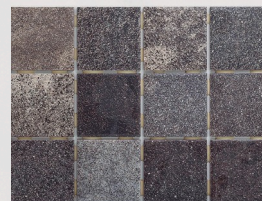

4. Samoa:

A lighter version of Samoa, with a softer blue tone that conveys serenity and a lighter, airier look.

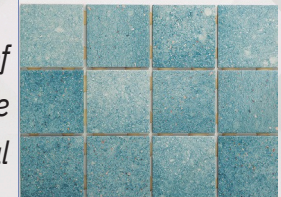

5. Kaimu:

A coating inspired by the black sands of the volcanic beaches of Kaimu, offering a unique and sophisticated aesthetic with a touch of exoticism, with a natural finish.

6. Vis:

A pure white coating, ideal for creating a sensation of spaciousness and purity, as well as enhancing the clarity and transparency of the water, with a natural finish.

7. Maui:

Coating with a vibrant turquoise hue, inspired by the crystal clear and paradisiacal waters of Maui beaches, providing a feeling of freshness and tropicality.

A empresa **Haas** iniciou suas atividades no mercado de fabricação de produtos em fibra de vidro em 1994, a partir da implantação de uma unidade de produção na cidade de Macaíba/RN, na região Nordeste. O Rio Grande do Norte foi escolhido para sediar a Haas, tendo como motivos principais a sua localização estratégica e, é claro, o seu clima, que é extremamente importante para estabilidade na aplicação das matérias-primas utilizadas, proporcionando assim uma maior garantia na qualidade de fabricação dos seus produtos.

A centralização da unidade fabril da Haas teve como objetivo principal uma melhor qualidade no produto final, produzida através de um rigoroso controle nas suas matérias-primas, podemos ter uma total rastreabilidade de todos os insumos utilizados na confecção de nossos produtos, identificando assim qualquer produto. Outro motivo importante para centralização de sua produção é a uniformização de seus produtos, pois tendo um controle único torna-se cada vez mais preciso e rigoroso.

Desta época aos dias de hoje a Haas se expandiu, conquistou novos espaços e hoje se consolida entre as maiores e mais modernas indústrias de produtos em fibra de vidro do País. Estamos presentes em várias regiões brasileiras, com filiais e pontos de representação. Ao longo dos anos, investimos fortemente em tecnologia e recursos humanos, com o foco voltado sempre para a satisfação do cliente.

A Haas piscinas é muito mais do que uma simples fabricante de piscinas e produtos em fibra. Somos construtores de sonhos. Construimos com prazer o lazer de milhares de pessoas que em todo o Brasil consomem os nossos produtos e atestam o padrão de qualidade como nosso principal diferencial.

A Haas é sinônimo de credibilidade e confiança.

La empresa Haas inició su actividad en el mercado de fabricación de productos de fibra de vidrio en 1994, después de la implantación de una unidad de producción en la ciudad de Macaíba / RN, noreste de Brasil. El Estado de Rio Grande do Norte fue el lugar escogido para establecer la sede de Haas, teniendo como motivos principales su ubicación estratégica y, por supuesto, su clima privilegiado, factor muy importante para la estabilidad en la aplicación de las materias primas utilizadas, proporcionando así, una mejor garantía en la calidad de sus productos.

La centralización de la planta de fabricación de Haas tuvo como objetivo mejorar la calidad del producto final, a través de un riguroso control de las materias primas, obtenemos una trazabilidad completa de todos los insumos utilizados en la producción de nuestros productos. Otra razón importante para centralizar la producción es la estandarización de sus productos, ya que al tener un único control de calidad, este se vuelve cada vez más preciso y estricto.

Desde los inicios al día de hoy, Haas se ha expandido conquistando nuevos espacios y consolidándose entre las mayores y mas modernas industrias de productos fibra de vidrio de país.

Estamos presentes en varias regiones, con sucursales y puntos de representación. A lo largo de los años, hemos invertido mucho en tecnología y recursos humanos, con el enfoque siempre dirigido hacia la satisfacción plena del cliente. Haas Piscinas es mucho más que un simple fabricante de piscinas y productos de fibras. Somos constructores de sueños. Construimos con placer el ocio de miles de personas que en todo Brasil, consumen nuestros productos y atestan la alta norma de calidad como nuestro principal diferenciador. Haas es sinónimo de credibilidad y confianza.

HAAS - Swimming Pools Company started its activities in the business of making fiberglass products in 1994, from the establishment of the unit located in the city of Macaíba Rio Grande do Norte State – northeast of Brazil. Rio Grande do Norte was chosen because of its privileged and strategic location and, of course, the weather which is extremely important for stability in the application of the raw material used in products manufacturing.

The centralization of HAAS manufacturing units had the main objective as reach a better quality for the final products, because they are manufactured with high level of quality control in the raw material applied. This way it gives total traceability of all materials used in the process of our products, creating an identity for them. Other important reason of the production centralization and the products of uniformization its because with this unique control it becomes more precise and rigorous. From that time up to now HAAS has expanded, conquering new market spaces and today it is consolidated between the biggest and most modern fiberglass industries in the country.

The Company is present in several Brazilian regions, with branch and representatives. Along the years, it has been invested strongly in technology and human resources, always pursuing the client satisfaction. Haas swimming pools is much more than a simple manufacturer of swimming pools and fiberglass products. We are dream makers. We built with pleasure the leisure of thousands of people around Brazil that use our products and they certify the quality as our main differential. HAAS is a synonym of credibility and trust.

Em julho de 2013, implantou a segunda unidade fabril na Zona Franca de Manaus, em uma área de 300.000 m², sendo considerada hoje uma das maiores e mais moderna indústria de piscinas de fibra de vidro da América Latina, expandindo o atendimento no mercado brasileiro, atuando também na exportação de seus produtos. Desta forma, a HAAS Piscinas consolida-se definitivamente como uma empresa de alto padrão de qualidade, sempre pensando na satisfação do cliente, razão maior de sua existência.

En Julio de 2013, implantó la segunda unidad fabril en un área de 300.000m² en la Zona Franca de Manaus, siendo considerada hoy una de las mayores y más moderna industria de piscinas de fibra de vidrio de América Latina, ampliando la atención en el mercado brasileño y actuando también en la exportación de sus productos.

In July 2013 opened the second plant located in Zona Franca de Manaus, with an area of 300.0000m², it has been considered one of the biggest e most modern fiber glass swimming pools industries in Latin America, expanding to give support to the Brazilian market and also exporting its products. This way, HAAS Swimming pools is definitely consolidated as a high quality assurance company because it is always thinking about the customers satisfaction because the customers are the major reason of its existence.

Haas São Paulo

Em novembro de 2015, a empresa HAAS iniciou suas atividades no Estado de São Paulo, na cidade de Uchoa, ocupando uma área de 46.000m². A nova unidade visa aprimorar a logística de atendimento da região Sul e Sudeste. A conquista do mercado nacional pela HAAS, deve-se ao aprimoramento e desenvolvimento de produtos que valorizam a qualidade para atender as necessidades de seus clientes.
